2019-24

---

Statement of  
community  
involvement

---

Jan 2019

---

## 1 Introduction

1.1 This Statement of the East Devon AONB Partnership Plan consultation process sets out in broad detail how the East Devon AONB Partnership will involve/consult the community on the review of the existing 2014-19 East Devon AONB Management Strategy.

1.2 The AONB Partnership agreed that a 'light touch' review should be undertaken and not a wholesale change to a Strategy that is working well and delivering positive outcomes across the AONB.

1.3 It is not intended to amend the existing key objectives or policies in the existing Management Strategy. The focus will be on restructuring and updating the evidence/background/context and forces for change to enable the identification of a Delivery Plan that is relevant and targeted to current and future challenges.

## 2 The AONB Management Strategy (renamed 'Partnership Plan')

2.1 The revised AONB Partnership Plan will comprise three parts.

- The main Plan document, setting out the context, vision, strategic aims, key objectives, policies, priority actions and indicators
- The Delivery Plan, detailing the targets and actions for the plan (this will follow after completion of the public consultation on the main Plan document)
- Supporting documents, including the environmental assessments/reports, surveys, background and evidence documentation and statements of consultation and approvals.

2.2 We will consult internally and externally on the draft main Plan document and key assessments, confirming the context is relevant and up to date and the evidence and forces for change are appropriate.

2.3 As part of this process we will seek views on the key priorities to enable a targeted Delivery Plan to be developed for the Plan period.

### 3 Statement of the Consultation Process

3.1 This Statement of the Consultation Process sets out the minimum we will apply in undertaking consultation and engagement with the public. The table shows how we intend to consult at each stage of the review. In some cases, we may add to the consultation, as opportunities arise. It will be updated accordingly and revised versions will be placed on the AONB web site.

The colour coding used shows the following

Stage completed
Stage underway
Stage not yet started

Period	Internal /External	Details	Consultation we will undertake	Action/update
Jul-Dec 17	Internal	<p><b>Initiate review process – confirmation of AONB Partnership role and requirements from EDDC/DC to implement review</b></p> <p><b>Evidence gathering and scoping for Strategic Environmental Assessment (SEA)</b></p>	<p>Local authority partners consulted to confirm requirements of the review</p> <p>AONB Partnership consulted on review expectations/scope</p> <p>National evidence and context gathering through NAAONB and Natural England</p>	<p>EDDC/DCC confirmed AONB Partnership to implement ‘light touch’ review</p> <p>Review to focus on the changing context and updating targets whilst maintaining existing objectives and policies.</p> <p>SEA scoping sent to NE/EA/HE</p>
